Society

## Inholmes, Woodlands, St Mary, Berkshire

Inholmes is set in 10 acres with wonderful views over parkland. There are a wide variety of different areas to enjoy including walled gardens with formal planting and inspirational herbaceous borders, rose beds, cutting and sunken garden. You can walk to the lake and through the meadow. In summer the borders are bursting with colour

Inholmes is the home of Sir Frank Williams founder of the Williams formula one team.

Of course, the garden wasn't really Franks passion but that of his late wife who spent years creating the beautiful garden.

Surrounding the house are a number of distinct gardens, including a lovely walled garden. One of the gardens is dedicated to the late Ayrton Senna.

It is a really beautiful and tranquil place to be and quite a difference to the F1 paddocks usually frequented by its owner.
